SPECIES TULIP

Red Emperor

A glorious scarlet-red Tulip of remarkable size and substance. The petals are 6 inches long and the flower opens in the sun like a tremendous Oriental Poppy disclosing a brilliant black center, bordered with yellow. It blooms about a week or ten days before the May-flowering Tulips and is not too tall. A bed of these would be absolutely startling. Certainly the largest and brightest red Tulip in existence. Height 18 inches.

SCILLA SIBIRICA
